NITRILE GLOVES

FEATURES & BENEFITS

- Excellent alternative to latex
- Powder-free, Latex free
- Ambidextrous
- Disposable - Single use

▶ PRODUCT DESCRIPTION

NITRILE GLOVES are general purpose, non-sterile and made of 100% nitrile. They make an excellent alternative to rubber latex gloves. Offer resistance to tears and punctures. Protect against a broad range of chemicals and incidental splashes. Stretch to conform to the hand for enhanced dexterity. Provide an effective barrier to blood-borne pathogens. Perfect for home use, food preparation and handling as well as laboratory work.

Color: Light Blue or Purple

Cuff: Minimum 230 mm, straight or roll edge

Size: M / L / XL
