

# NEW

## FROM DAN-LOC

Threaded Products | Fasteners & Gaskets | Precision Machining

# SURGICAL MASK

### FEATURES & BENEFITS

- Help reduce the chance of spreading air-borne diseases
- 3 layers help trap larger respiratory droplets
- ASTM Level 1 barrier protection - for general use for low-risk, nonsurgical procedures.

### ▶ PRODUCT DESCRIPTION

**SURGICAL MASKS** are loose-fitting, single-use, and disposable. When worn properly, they help block large-particle droplets, splashes, sprays, or splatter that may contain germs (viruses and bacteria), from reaching your mouth and nose.

Note: Surgical masks do not provide complete protection from germs and other contaminants because of the loose fit between the surface of the mask and your face.
