HAND SANITIZER TOUCHLESS DISPENSERS

PERFORMANCE THAT COUNTS.

In our effort to provide the right products, the right services, at the right time, Dan-Loc is making hand sanitizer dispensing equipment readily available for our customers. This touchless hand sanitizer dispenser automatically dispenses sanitizer when hands are detected under the unit. The contactless system provides excellent coverage allowing for quick and easy hand sanitizing. Large capacity (1,000 ml) reservoir. Perfect for daily use in workplace settings, universities, schools, stadiums, auditoriums, theaters, hospitals or other public places. The large front window allows for easy monitoring of fill level. Low-battery indicator light lets you know when it's time to replace batteries.
